

Polydeck's rubber liners are the easiest, quickest and safest way to help protect feed chutes, feed boxes, discharge lips, transfer points or any similar location that needs to be protected without welding or cutting.

Features and Benefits:

- Our liners prevent premature replacement of your equipment and save you money in the long run.

Specifications:

- 12" x 12" liners have one (6", 6") 11/16" through hole and 2" counterbore to steel
- 12" x 24" liners have two (6", 6" and 6", 18") 11/16" through hole and 2" counterbore to steel
- All steel back plates are 1/8" thick
- Plug available to protect counter bores at fastening areas
