

Polydeck Magnetic Liners are engineered with the highest quality magnets to ensure a secure attachment in extreme conditions.

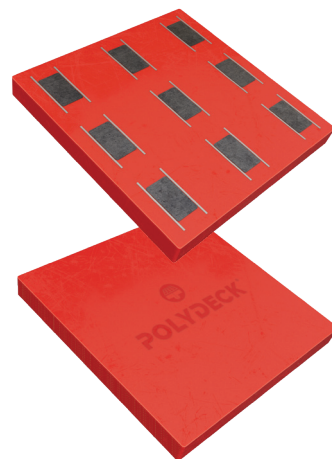

Designed with extreme holding force, our industrial strength magnets are molded into the panel and uniquely positioned to maximize their surface holding force.

Features and Benefits:

- Made with industrial strength magnets
- Magnets are molded into Polydeck's premium polyurethane to maximize surface holding force
- Best used on flat, metal surfaces where permanent mechanical fastening is not feasible
- Liners have guided cut lines based on the geometry and placement of the magnet to make in-field modifications easy
- Magnetic Liners are easily installed where drilling is unavailable and works well where there is straight, sliding abrasion in a chute

Poly Magnetic Liners:

Part #	Description
030FMAGIYSA	SD 12"x12"x30mm thick panel with 9 magnets
030FMAGIYFA	FL 12"x12"x30mm thick panel with 9 magnets
030FMAGIY6A	XFL 12"x12"x30mm thick panel with 9 magnets
